

**To: All Spal Group Partners**

We would like to update you about the **COVID-19 pandemic** situation in Italy following Government decrees passed until today. In the attempt to contain the escalating spread of the virus, from Nov 6th 2020 Italian Government has imposed restrictions in mobility and private services such as bars, restaurants, gyms, theaters,....

These restrictions are only regional and so far do not include the area where our plant is located.

These restrictions are not shutting down any primary needs and industries; manufacturing companies are exempted from these restrictions.

We are continuously monitoring all our supply chain and up to now, we don't foresee any potential breakage nor discontinuity in our supply chain.

**SPAL at today is therefore not affected by above measures and operations will regularly continue.**

We are not aware of any impact to our delivery schedule; updates are regularly elaborated and provided through our normal channels.

We appreciate your business and your SPAL representative will be in contact with you at the earliest opportunity if anything changes.
